Bw Modelica 2.0

—type specimen

Description

Designed by Alberto romanos, Bw Modelica is a minimal, robust, reliable & pragmatic geometric sans. Its clean shapes and generous x-height makes it a very competent face for both, display and body copy purposes.

It's available in four widths, each containing eight weights with matching oblique italics (that's 64 styles in total). The main font files include two stylistic sets allowing for more expressive options, specially for display use.

SS01 and SS02 are also available as stand-alone font files, for those who would prefer to use them directly without activating the OpenType feature.

Licenses are available from brandingwithtype.com and selected vendors. Please visit our site for the latest version and information on this font.
