#### Description

Quinta is a contemporary humanist sans designed by Alberto Romanos, that is approachable but well-grounded, getting any content delivered with efficiency while looking smart and professional. Its balanced structure makes it suitable for both print and on-screen applications, topping that versatility with its characteristic friendly shapes. Firstly released on June the 27th 2015, the current version 1.11 has been updated with improved diacritic marks and reviewed fractions.

The Std version has been discontinued in favour of the Pro version, that includes all the OpenType features with European Latin language support and Cyrillic.

Licenses are available from selected vendors.
